

GULF BREEZE CONSULTING^{INC}

Consulting Engineers

May 2007

OFFICIAL NEWS RELEASE

Re: Gulf Breeze Consulting Inc.

To our valued clients and business associates,

Gulf Breeze Consulting, Inc. is now located in downtown Pensacola at 25 West Cedar Street, Suite 440. The principal of Gulf Breeze Consulting is Daniel Nye. He has a unique and varied background having worked for a well respected local consulting engineering firm and a quality HVAC equipment sales representative company.

Mr. Nye practiced engineering at Schmidt Dell Associates for many years and has worked on a wide range of commercial, military, school and high-density residential projects. In 2002 he helped form the equipment sales division of Air Tech of Pensacola specializing in equipment sales and application engineering. He represented several outside air unit and specialty dehumidification equipment manufacturers gaining extensive knowledge of equipment design. In 2003 he formed Gulf Breeze Consulting, Inc while continuing to work full time at Air Tech of Pensacola. Gulf Breeze Consulting became a full time concern in 2007.

Gulf Breeze Consulting, Inc. is ready and able to serve all of your needs for professional consulting engineering services in the disciplines of mechanical (HVAC), electrical, and plumbing design. Our services include design, documentation, and construction administration for new construction, renovations, equipment / system replacement, and energy efficiency improvement projects. GBCI can offer the same expertise and technical capabilities as a large consulting firm with the added advantage of personal attention from our senior level personnel. We look forward to the opportunity to put our experience and abilities to work for you on your next project.

Sincerely,

Daniel Nye, P.E.
